What would be your suggestions for the overall improvement of the College and how would you like to contribute?

109 responses

Good

Good

.....

About the suggestion i don't know yet sorry, but I am eager to help them when ever they need me.

.

...

Everything is good for now

Teacher must be frendly with the students

Yes so good college and teachers all of it

The college needs to provide RDC the students ,who wants to join air force .

Improvement of teaching facilities....

Good 😊👍

I would like to thank to my dear teachers who teach me the ways till the day i graduated from Thomas jones synod college

Common room for students

Library

Play ground or indoor stadium.

If I could find ways and means I'll try to contribute some books to the library.

Better Canteen,Need the best character in the office,Treat well the sports persons,Need the best communication between the teachers and the students.

To have some work field during the college

Hardwork And Dedication

.Focus On Creating Space Where Students Can Come Together

.Go green

Use of technology and digital classroom

I would like to suggest that more facilities would be there regarding to improve the education, infrastructure, libraries,more books in every streams of the college Inorder for the goodness, of all the students.

-

Bring more activities ...with good facilities and guidance

The students,teachers and non-teaching staffs should cooperate for the betterment of the college.

Keep the Campus ground clean especially Boys Toilet!

Go green.

Need little more improvement in everythings

Keep developing in everything

More infrastructure is needed like auditorium for indoor game and increasing the number of book in the library.

These suggestions are the only contribution for the improvement of the college.

Library and Xerox machine

The best of the best

Support

as the majority belongs to the same tribe and community. So in order to learn English, one has to use the English language more. Otherwise everyone is friendly and the evs in general is wonderful.

More department to be establish

The college should have a value education and introduce a new way of learning viz.presentation, group discussion etc so that it will improve communication skill,it build confident, listening and develop critical thinking to students.

To give good lecture

More good college

Nothing

Enhanced student support services

Most students drop out not for academic reasons, but because of life challenges. To help students meet these challenges, successful campuses offer emergency financial aid and assistance with housing, transportation, food, and childcare.

More space is required.

Projects work

The educators should've provided practical and experimental along with the theoretical knowledge.

They should have Teachnext , a Books in the library ,give chance to a student to use computer

It is important for colleges to have some green project ideas for college students that may evolve students to concrete actions toward the protection of an ecology. It can be something like tree planting, street cleaning or any other environment-themed campaigns.

No suggestion

To move forward and take a responsibly for their students

Yes

Let Thomas Jones Synod College be shine forever and ever

My overall experience had been amazing and the college is having an amazing infrastructure.

The college had provided me with a number of opportunities to grow and explore my skills and the teachers are highly supportive.

Better communication between office staff and students, Cctv, better canteen, upgradation of classroom, students common room, upgradation of college hall and overall college atmosphere.

I would like to say all I have done was perfect and good

To collaborate and to participate more and more

Suggestions:- Office should be open at timings given.

Continuous quality improvement

To make the fees constant and computer improve

Library should be extended and should be provide more books for commerce department

To help them in every situation...

To appoint permanent lecturer

all are good as it is

College should provide the need of the student depending on the competitive environment. I would to contribute by sharing my experience, knowledge that i have gain in the college.

The College should have a college bus, which would be highly appreciated for students who live far from the location of the College.

Nothing at all

To be equally in every thing

- 1.school bus
- 2.lab equipment

Experiential Learning

Allow Practice Teaching

I would request more books in the library, proper internet connection for the computer lab. And smart class especially for the English department since we are doing drama and the study of characters it would be easier if it can be seen on screen to learn better.

With no other doubt, i just want the college to grow and improve day by day

We should be honest what ever we have.. We would like to contribute the best things or the best quality..

Keep encouraging the students

Help students create clear educational and career plans.

According to my abervation, Thamos Jones College needs to improve this fallowing below:

- 1)Proper playground.
- 2)Hostel for Boys and Girls.
- 3)Quater for staff and non-teaching staff.

My suggestion is for the teachers to give proper notes for the students.

According to my observation,Thomas Jones Synod College needs to improve.

Inclusion of more departments and infrastructure facilities.

More rooms is needed for classes, seperate boys and girls common room. Any help that the college need I'm willing to contribute.

By working together in unity as staff and students; together with the alumni we can all achieve greater heights which will in turn help the college to grow and improve. From my side I will definitely be there involving myself in whatever way I can so that our College will be at par with other reputed colleges in our state and even in our country.

By introducing few more departments where students will have varied choices in choosing their subject combination and also improving in infrastructural facilities.

The college over the years has really improved alot. Since we are living in a technological world i think we need to move up with time by encouraging teachers to use projector to improve teaching so to achieve better learning.

Go green

1. Keep improving
2. Whatever I can

Looking for more improvement in the future. All the best TJSC

Hire the best.

improvement for the college canteen

Smart classes should be held regularly as learning only by hearing is not so much effective, also study tours should be organised to refresh as well as to interest the pupils.

Combine classes was little hard where there were many students, students at the back can't understand the topics clearly especially when the teacher is exhausted. In this case there should be electronics Microphone inside the class for the students to hear properly.

My suggestions for the overall improvement of the college is to believe in themselves and work hard for the bright future

Improvement in the library and computer.

Smart class will be more helpful for students in understanding lesson and in making the class more interesting. Audio visual will be helpful towards the students for making the lesson more clear and understandable.

Lack of books in the Library

The college need to improve more on the books in the library especially in the history of northeast India

Identify sources of dissatisfied . engaged with students.wrap technology around institute

Need more books in library

We want more teachers for commerce Department

**\*\*Should provide uniform to the degree students\*\***

Cost of Canteen food.. Too expensive

Toilet facilities for the students to each floor.

It,s good

Good wifi connection, improvement on computer facilities , audio-visual classes

Improvement on Computer Facilities

We have to participate

We need more text book which relates to the syllabus of bachelor of arts

Keep up the good work.

From my point of view I would to suggest the authority of the college to have a school Bus for the easy transportation of the students.
