Job oriented

Group discussion and role play

There should be a group discussion between students and teachers.

In classroom teaching today, I personally suggest using of digital teach next in each and every classroom helps the student to understand better as they can also see and not just simply listen.

Home science

Not bad

Yes

Teaching should be upgrade from time to time

Not good

Women empowerment and social issue.

Allow Practice teaching which is a part of our 6th semester syllabus

Good

Determine ways to include technology in classroom to promote learning among students

I feel like in Meghalaya especially, there is no sex education, it would be great if sex ed is incorporated and perhaps, seminars should be held with regards to mental health because nobody is talking about it.

No i found everything is good

The syllabus as compared to other universities of NE region, Nehu seems to have the easiest. So, i'd suggest, atleast 2 papers in the beginning of the sem and 3/4 papers in the end sem be included. I know it's not appropriate to say it, but when a student opt for MA, if that is implemented maybe it'll be easier to cope with the current MA syllabus.

Everything is good . So, i have nothing to suggest.

No suggestions

It would be better if the books were sufficient enough for the Students

I would assume the teacher while teaching to do some Curricular activity in order the student would be concentrate while the teacher are given lecture in the Classroom. I

I would suggest that the students should be asked to give a presentation (individually or in a group) so as to increase their vocabulary, confidence and knowledge. Also this would help mould their personality which would be of great help in their upcoming professional life.

Make Learning an Adventure. Instead of describing a new topic, have students use their imagination to visualize that they're right in the middle of what you're teaching.

Im satisfied

Helpinh students to accomplish the goals of the course.

All Classes projector more to be working properly.

Proper sound system like microphone and speaker is also needed inside the classroom...

No Suggestion

When the teacher teach us we cooperate with they taught us in the class.

By impoving the using of power point rather than notes

Provides more books in the library

Teaching should be more fun and exciting.

No

I personally feel that presentation in the classroom is very important and helpful for the students because it helps them to think critically, develop their mental and their speaking skills.

Include team work, lot of paperwork, using projector, whiteboard and doing presentation.

Brainstorming, Exploring, collaborating and Researching

No suggestion.

My few suggestion is that students should learn about personal finance, mindfulness, mental health, survival skills....

Get more time to teach and inspire learners with in the classroom. Get a quick overview of the benefits of classroom, teachers can quickly assess authenticity, help students turn in their best work.

Providing Counselor in the college is very important. As we see at present, that most of the students/ youths were confusing about their career and some of the students/youths due to this problems that they were facing has led them to have mental issues (Anxiety, depression etc) and some of them have even taking their life by attempting suicides. So, Counselor is very needed I feel in order to help the students to have a bright future.

Asking questions is a must because from that it will help us learn and improve.

For the overall improvement of the college I am satisfied with it but upgrading everytime is even better so I suggest to improve in the canteen area and computers section as technology is compulsory.

Yes

Collaboration

Canteen need to improvised

Remedial classes to make use and renovate the rest room for both men and women. Canteen

services need improvement too.

To learning

- 1) Improving teaching and learning practices
- 2) improving access to course facilities and services
- 3) improving assessment practices
- 4) improving staff attributes and behaviour

I don't know.

More contemporary book

According to what I have been studying in the college the only thing that comes to my mind, that the college should provide is uniform.

1. Even though it's a mass of one language speaking people, I'd say the use of English should be given more importance for the betterment of the students as well as the teachers.
2. Student- teacher relationship should be improved overtime for its betterment even though it's already good.
3. More books should be provided in the Library.
4. More Curricular activities should be introduced. And if there's any space left, indoor stadiums should be constructed. Only basketball court is not enough.
5. Since many of the students cannot evaluate their own answers, I'd like to ask if the teachers can help them with how to write an answer or tell them how proper answers are written.

They should look more into the need of the students.....and cooperate with them in their need.

Help students create clear education and career plan

Satisfactory

It would be a great if the Colleges provide transport facilities for the students. I would like to say that the staff (counters) should behave properly towards the students. Last but not the least the computer facilities should be made available to the students plus with the internet access (wifi).

I prefer the college Good.

To improve the use of computer facilities

Sport facilities, playground.

Computer,entrepreneurs subj.

Providing internet connection for the students so that they can also access materials from the internet as well...

We need more teacher

Career Guidance

Books in the library should be enough when students needed.

Improve infrastructure and the updated education facilities

Update more Books in the library

Introduction of some other departments for students to have more opportunities to choose from.

- 1) Introduction of various other departments.
- 2) Importance of having student counsellor.

Nothing.

Punctuality of the Office berer

Water supply

My suggestion is very good n all the teachers are friendly and very helpful for us,

Looking at how the college is now it's perfect as it is. My only request is as the college keep on growing keep on improving please don't hike up the fees to that limit which trouble the middle

class family who wants better education.

Upgrade the standard living conditions

Enable health and therapy

Promote Skill livelihood

Improved Financial stability

More books in library .

6. Increase Parking.
7. Create a Sustainable Student Farm.
