Good

Very good

Yes

1. Have more books in the library

Better good and fair

Can't say

All are well maintained

Use of ICT can be improved. Complete silence in the library. And Active learning also can be improved.

Passive teaching must not be used to great extent. Use of mic in the large room. Multiple assignments should not be given at the same time.

Kindly give more project and real time problem to solve
Courses can be more research oriented
New technology monthly updates can be given.

3) Many competitions can be conducted in the school/colleges.

Make time usefull, taking extra classes, and Clarifying one another

I request the teachers after completing their sallabus to give us one class for clarifying our doubts as it give us students also the opportunities to be strong socially in words especially to communicate to the teachers in english as this will build our confidence to be very active in their work

We need more experiences.

We need more knowledge .

When we get good teaching, it will make us easy to understand our future life.

1. Get to the involved in creative activities

2. Finish the syllabus on time

3. Adding plays to make learning literature more interesting

1.teachers reactions toward students mistakes.

2.I request that all the notes is to be send through Google classroom for better distribution.

3.I Gladly thanks Thomas Jones Synod college for this survey,for some reason.

This answer is verify to my own question

According to My understand

My response

- 1: Providing a microphone in class because some teachers' voices are low
- 2: teachers take so long to take attendance and their voice is not even clear while taking attendance we end up missing our attendance
- 3: they should interact with students

1. better relationship with the students
2. loud voice

To have a proper teacher

1. To have a proper teacher

Introduce technology in the classroom
Connect to students individually
Personalize the learning experience of the students

Sometimes I did my own work with a presentation from my own ideas, and intelligent.. For good work

Nothing to Express

Interact with the students

- 1) there is no LCD projector while teaching.

Hhujwbsh

1. It improves our learning skills.
2. It builds up our confidence.
3. Through this institution we got to learn new things.

Good explanation teacher
Explain as with projector so we can understand more and be interested more in the subject

Projector example

- 1) Should provide a projector.
- 2) teachers should be friendly with students.

1. Take Regular classes
2. Punctuality

Thanks you

Always effective, Good, Excellent

It is good thanks you 👍

Repetition of the explanation

Revision

Homework

Questioning students, giving homework and reading poems or stories out loud.

1. Connect more with the students individually.
2. Implement visual technology in the classroom.
3. More projects, assignment and test.

It's good

The overall teaching and learning experience in our institution is good

Explanation by using projector so we can understand more and be more interested in the subject

Use of ICT a great extent. More learning activities should be conducted. one period for one topic for one week shouldn't be practiced.

1. The way of teaching and the language they teach that the students can understand well.
2. The relation with teacher and students that can help for students especially to asking what they need.
3. As a student we need a good counselor with teacher not only teaching a class.

1. Teachers must use a projector so that it will be so clear for students. 2. Teachers must give full of their power, their knowledge in teaching as much as they can so that students may clear about their studies. because sometimes we saw the teacher teach the students just for getting salary they didn't give full of their power, their knowledge, and when they teach just for the sake of completing the syllabus, they didn't worry if the students clear or don't clear. 3. Teachers have to show love to the student and treat them equal, sometimes a pride also have in the teacher about their position they feel that we the teacher we know everything, student no nothing.

*If all this three point free from doubt and it will really changed the education and it will improve in overall.

Teachers always teach me a good lesson to learn

If the teachers use more often teaching technology
